(*)The CoARC understands that with Degree Advancement programs that some non-key personnel may work off of campus and telecommute rather than physically coming to work. Nonetheless, these faculty should be available to meet with the site visit team virtually. The Program Director should arrange any virtual meetings and secure the technology to facilitate these meetings prior to the site visit team's arrival.

(**) The CoARC would expect that any Degree Advancement program offering distance education would have a fully integrated Learning Management System (LMS). The site visit team will ask to see course(s) that reside within the LMS and any relevant associated content. The site visitors will not need log-in access. Any log-in requirement would be facilitated by the program director prior to the site visit team's arrival.

Opening and Closing statements will be signed by the Administration, Program Director, and Site Visit Team Captain.
