

The CoARC 2021 AWARDS

The Distinguished RRT Credentialing Success Award and the President's Award for Excellence Criteria

The President's Award for Excellence and the Distinguished RRT Credentialing Success Award is presented as part of the CoARC's continued efforts to value the RRT credential as a standard of professional achievement. From a program effectiveness perspective, the CoARC views the RRT credential as a measure of a program's success in inspiring its graduates to achieve their highest educational and professional aspirations.

In selecting programs for this recognition, the CoARC Board used objective criteria based on key accreditation metrics documented in the 2020 Annual Report of Current Status RCS. The CoARC extends its sincere congratulations to you, your faculty, students, and graduates for meeting these rigorous criteria.

The Distinguished RRT Credentialing Success Award - programs were required to: (1) have three or more years of outcomes data; (2) hold accreditation without a progress report; (3) document RRT credentialing success of 90% or above, and (4) meet or exceed established CoARC thresholds for TMC high cut score and retention.

The President's Award for Excellence in Credentialing Success - programs were required to: (1) have three or more years of outcomes data; (2) hold accreditation without a progress report; (3) document RRT credentialing success of 100%, and (4) meet or exceed established CoARC thresholds for TMC high cut score and retention.

Keep in mind that the conferral of this achievement award does not imply the CoARC's recommendation, endorsement, or ranking of your program in relation to other CoARC accredited programs. Publications or announcements of this award shall not imply such recommendation, endorsement, or ranking. The primary responsibility of CoARC is to accredit programs based on their compliance with established accreditation standards.
