

COMMISSION ON ACCREDITATION FOR RESPIRATORY CARE

Public Disclosure Notice of Probationary Accreditation

The following Public Disclosure Notice will be posted on the CoARC website after confirmation that the Program has received notification of the CoARC's final decision to either confer Probationary Accreditation, Withhold Accreditation, or Withdraw of Accreditation. Institutions who wish to respond are limited to agreement with the statement or identification of any factual inaccuracies and/or potentially misleading comments. If the response from the institution identifies problems with the statement, the statement will be adjusted as long as it accurately reflects the decision made by the CoARC. Lacking a response from the institution, the published statement will indicate that no response was received.

Final accreditation actions will be disclosed on the Summary of Meeting Actions listing on the CoARC website and in response to written or verbal inquiries. Notification of final accreditation actions is also conducted through the Annual Report of Accreditation prepared and distributed annually to the communities of interest and posted to the CoARC website.

The CoARC updates its website directory of accredited programs to reflect recent actions and accreditation status and reserves the right to disclose any adverse action to the public or to relevant state, federal, or accrediting agencies prior to final action.

Institutions who wish to respond must do so by emailing shelley@coarc.com within **fifteen (15) business days** of receipt of this notice.

COMMISSION ON ACCREDITATION FOR RESPIRATORY CARE

Public Disclosure Notice LAUREL TECHNICAL INSTITUTE (200567)

At its December 2025 meeting, the Commission on Accreditation for Respiratory Care (CoARC) conferred **Probationary Accreditation** to the AST Degree Entry into Respiratory Care Professional Practice Program sponsored by Laurel Technical Institute. Probation is a public status and, therefore, the information provided below is in accord with the Commission's policy on release of information (see CoARC Policy 11.05D).

Probationary Accreditation was conferred after review of the Program's accreditation record during the November 2024 and December 2025 CoARC Board meetings. The following Standard(s) is/are not in compliance:

Standard Citation 1

Standard 3.07 – Program Goals, Outcomes, and Assessment – Reporting Program Outcomes

Regardless of the degree awarded, all programs must, at a minimum, meet the thresholds established by CoARC for all mandated outcome measures at all program locations, notwithstanding the instructional methodology used. Program outcomes must be submitted to the CoARC annually, on or before the mandated deadline, using the Report of Current Status (RCS) format.

Rationale for Citation: Based on the 2025 Annual Report of Current Status, the Program did not meet the threshold for TMC High Cut Score Success (2022-2024 average results=56% [19/34], threshold=60%). The Standardized Progress Report submitted in September 2024 and Progress Report Update submitted in September 2025 addressing TMC High Cut Score Success were acknowledged by the Commission.

Please see page 2 for more information regarding Probationary Accreditation.

Public Disclosure Notice

Page 2

Please Note: Probationary Accreditation is a temporary status of accreditation (maximum duration of two (2) years) conferred when an accredited program is not in compliance with one or more Standards and/or Policies, and progress reports submitted do not demonstrate correction of these deficiencies. Probationary Accreditation can also be conferred when a sponsor receives an adverse action, as described in CoARC Policy 1.07. Following conferral of Probationary Accreditation, the program must file a Probation Report as directed by the CoARC Executive Office. If/when, to the satisfaction of CoARC, the program is able to rectify all the deficiencies that resulted in Probationary Accreditation, and thereby achieve compliance with the Standards, the CoARC will remove probationary status.

If the program remains out of compliance with the Standards at the end of the first year of the two-year probationary period, the CoARC may withdraw accreditation unless the CoARC determines that the program is making a good faith effort to come into compliance with the Standards. The CoARC defines a “good faith effort” as: 1) a completed comprehensive assessment of the non-compliant Standard(s) under review; 2) development of an appropriate plan for achieving Standards’ compliance within a reasonable time frame (not to exceed the two year probationary period); 3) a detailed timeline for completion of the plan; 4) evidence that the plan has been implemented according to the established timeline; and, 5) evidence that the program is making progress toward achieving compliance as stated in the plan. It is the program’s responsibility to make the case that a good faith effort has been made. If compliance with all Standards is not demonstrated within the two (2) years following conferral of Probationary Accreditation, accreditation will be withheld or withdrawn. In no case will probation status exceed 2 years. Programs on Probationary Accreditation are prohibited from increasing cohort and enrollment numbers until Probationary Accreditation is removed.

A program on probation maintains the accreditation status existing prior to conferral of probation and is therefore required to adhere to all applicable policies, including the submission of the Annual Report of Current Status (RCS) on or before the due date. However, review and approval of the RCS per se does not affect the probationary status. Because probation is not a part of the accreditation cycle, the applicable accreditation cycle dates remain in effect. When related to probation, a decision to Withdraw Accreditation is subject to reconsideration but cannot be appealed (See Policy 1.06).

The CoARC requires a sponsor to complete a teach-out plan when a program is placed on probation, requests inactive status or when accreditation is withdrawn either voluntarily or involuntarily (see Policy 1.13). Enrolled students graduating from a program under Probationary Accreditation are considered graduates of a CoARC accredited program. (**Accreditation Policy 1.053**)

The next review for Laurel Technical Institute is scheduled for the March 2026 CoARC Board meeting.

This statement has been reviewed and approved by the institution.
